

## Judge Mr. Svein Bjørnes - PROFILE

My name is Svein Bjørnes, I was Born in 1968 in Norway, and lived there until 1996, when I moved to Copenhagen and meet my Partner, who I am living with. In 2003 we found interest in the Beautiful Breed, The Coton de Tulear :)

We fall in love with the beautiful breed, and we found a breeder here in Denmark who has been breed for many years and our 1 dog was found. After almost 2 years with dog show in the Nordic Countries with him, we need to have more, and we started to look for one female of same breed, and we found her in Spain, from the famous Woodland Cottage breeder, but in same time we also got a Beautiful Coton de tulear male from Breeder Tidelidee's in Norway, and those dogs, we still have great success with.

We have been traveling around Europe - Nordic - and The World, and we have meet a lot of very nice people and also made new contact with many dogfriends, all over the World. Europe and WorldWinners and MultiChampion, titles we have brought home, and lots of Trofé.

In our home we also have 1 beautiful Lhasa Apso, from a very good breeder in Denmark that we have been showing, and until further got Junior World Winner and Multi Champion titles on her too.

Our dogs are living in our house, as an fully members of our family.

I started on my Judge education in 2008, and was Authorized for the 5 Breeds in the Bichon family; in 2011. And new breeds are hopefully coming on my CV.

I have been judging Unofficial shows in Denmark and, officials, and have also judged the Coton de Tulear Specially in Belgium 2012, and Coton de Tulear special in Norway 2012. In Norway there was also including the 4 other White Breeds of the Bichon family! In June 2012 Maltese Specially in Dublin Ireland. In 2013 I am invited to the Bichon Havanaise Specially in Norway.

I am looking so much forward to come to Brno and Czech Republic and judge Your Specialty in 2014, and I will do my best, to make this day, to a Special day for everybody!

With all my best  
Svein Bjørnes
